Objective

For the Biblically Responsible Investor seeking Capital Appreciation with a concentration on Israeli companies through long-term growth and total return..

Strategy

The strategy seeks to achieve its objectives by investing at least 80% of the Fund's total assets in the common stock of companies domiciled and/or headquartered in Israel through the purchase of American Depository Receipts (ADRs) and direct investments in such companies on foreign stock exchanges, without regard to market capitalizations. The Fund invests its assets in companies, which the Fund's Investment Manager believes show a high probability for superior growth. Companies that meet or exceed specific criteria established by the Manager in the selection process are purchased. Securities are sold when they reach internally determined pricing targets or no longer qualify under the Manager's investment criteria.
